### Experience

Dexter Hancock has been a food service director since 1971. He retired from the US Army as a Colonel in September 1994 where he held the position of Dietetic Consultant for the North Atlantic Region Medical Command and Director Nutrition Care Division at Walter Reed Army Medical Center. He was the Director of Nutritional Services for the DCH Health System, a group of 5 hospitals based in Tuscaloosa Alabama, from October 1994 to December 2010.

He has extensive experience with all types of healthcare and commercial food service including patient room service, cook-chill, and large retail food service operations as well as upscale catering and event coordination. He is well versed in developing contracts for food and food service equipment procurement and has an extensive knowledge of benchmarking and food service cost control and financial management systems.
