## Experience

Tim has over thirty years of healthcare management experience. He has a strong hospitality background having spent four years as a Chef in local hotel / club operations.

Tim specializes in retail service solutions that deliver profitable sales, a positive team atmosphere, thus improving the outcomes of guest satisfaction. He is also very experienced in driving results in productivity, staffing while meeting all operational opportunities involving budgets and compliance initiatives.

His passion of change management applications evolving from environmental, and operational sustainability challenges.

Tim's greatest accomplishments include moving coordination of the FANS department to a new hospital facility while maintaining patient meal delivery.
